CC101 DIPLOMA BACHELOR IN COMPUTER SCIENCE

FACULTY OF COMPUTING & MULTIMEDIA (FCOM)

COMPUTER PROJECT 1

FYP3024

LOG BOOK

STUDENT'S NAME : NURSYAFIQAH ZULAIKHA BINTI ZILKAMAL

ID NO. : AM2412018113 **SUPERVISOR :** MADAM JIHADAH BINTI AHMAD

PROJECT TITLE : SMART EVENT EQUIPMENT BOOKING AND INVENTORY MANAGEMENT SYSTEM (PINJAMGENG)

CC101 DIPLOMA BACHELOR IN COMPUTER SCIENCE

Week	Agenda	Next Agenda	**Signature** (Supervisor / Coordinator)
1	Brainstorming, Introduction to the course and Title selection	Problem definition, objectives formulation, and project scope definition.	
2	Discussed campus equipment borrowing bottlenecks, defined project objectives, and planned user requirements.	Literature review on existing booking systems and drafting project proposal report.	
3	Reviewed comparative analysis, identified research gaps, and established Agile methodology lifecycle.	System architecture planning, user flowcharts, and user interface wireframing.	
4	Presented UI wireframes, student/admin operational flowcharts, and relational database schema.	Relational database modeling, MySQL schema design, and data dictionaries.	
5	Finalized database schema, data dictionary, and submitted project proposal report to supervisor.	Preparation and development environment setup.	
6	Project environment setup using XAMPP, PHP 8.2, MySQL, and Tailwind CSS.	Developing role-based authentication and live equipment catalog module.	
7	Implemented user authentication (BCrypt hashing), equipment catalog, and stock availability progress indicators.	Developing pre-configured "Smart Event Packages" explorer and package selection.	
8	Implemented pre-configured Smart Event Packages explorer and 2-step equipment booking wizard.	Building automated schedule conflict checking and downloadable A4 loan agreement slip.	
9	Implemented real-time date conflict validation and standardized downloadable A4 loan agreement slip.	Developing administrator booking approval console and equipment return inspection desk.	
10	Constructed admin booking approval workflow, return condition inspection desk, and auto-generated maintenance ticketing.	Conducting unit testing, integration testing, and preparing UAT questionnaire.	
11	Conducted automated unit and integration testing across booking and inventory modules.	Conducting User Acceptance Testing (UAT) with student leaders and lab administrators.	
12	Completed live system demonstration to supervisor and reviewed final project report draft.	Final report submission and project presentation preparation.
